

Nethergate Academy is proud to be in partnership with Magic Breakfast, providing healthy breakfasts to our pupils so that they are settled and ready to learn.

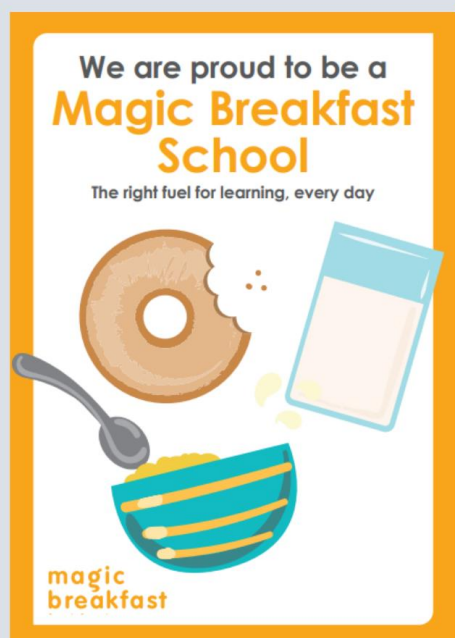

We recognise that school mornings are busy in any household, and the time to sit and eat a healthy breakfast can – all too often – run out! Magic Breakfast provides Nethergate with nutritious breakfast food to ensure children start their school day in the best possible way. Breakfast gives children the energy needed for the busy school day, enabling them to focus on their learning.

Food choices include toast, bagels, a range of cereals and milk.

Here at Nethergate, breakfast is offered from 9am, when pupils arrive at school. We provide both a breakfast café and delivery service, operated by our 6th form pupils.

Magic Breakfast is so much more than eating breakfast!

Fuel for Learning

Breakfast on arrival gives pupils the energy needed for the busy school day.

Communication

Our breakfast service promotes communication, creating opportunities for pupils to ask questions, make simple requests and express their own preferences.

Social Interaction

Our breakfast café creates opportunities for pupils to socialise, building positive relationships with their peers and adults.

Work-Related Learning

Our breakfast café and delivery service is operated by our 6th form pupils. They are assigned roles including set up, preparing orders, serving, cleaning and tidying away. The aim is to develop independence and essential skills for the workplace.

Exploring New Foods

Many of our pupils have limited diets due to their sensory needs. Our breakfast service creates opportunities for pupils to explore different foods and textures.
