Post 16 Students

The Post 16 dress code plays an important role in contributing to the ethos of the wider academy, and in setting an appropriate tone for an independent and mature approach to learning. This will allow students to express themselves as individuals, but in an appropriate way while complementing the main academy uniform policy and setting an example for the younger members of the academy community.

Whilst students are given considerable freedom in determining how they dress to attend Post 16; some items are prohibited, and these can be found in the Academy Uniform Policy
